PROFILE

Reliable software. Clear systems. Practical AI.

Product-minded full-stack engineer with 4+ years of experience delivering production web platforms, enterprise systems, SaaS products, and generative AI integrations. Strong across modern frontend architecture, backend services, data workflows, deployment, and customer-facing delivery.

01 / EXPERIENCE

Full Stack Developer | yes

JUL 2024 - PRESENT

Kfar Saba / Hybrid

- Build and modernize production platforms with Vue, Nuxt, TypeScript, Pinia, Tailwind CSS, and reusable component architecture.
- Integrate REST and LLM APIs while working across Java, Kotlin, Android, Linux, NGINX, Microsoft Entra ID, and Intune environments.
- Own delivery workflows across Git, Bitbucket, Jira, CI/CD pipelines, and production deployments.

Frontend Developer | Telit

OCT 2022 - JUL 2024

Tel Aviv District

- Developed reusable React applications with React Query, Redux, Storybook, Material UI, styled-components, HTML, and CSS.
- Translated Figma designs and product requirements into documented, production-ready interfaces and maintained quality through peer review.

BSS Developer | Telit

MAR 2022 - OCT 2022

Tel Aviv District

- Supported enterprise billing, invoicing, and ETL workflows with SQL Server, SSIS, SSRS, MongoDB, C#, and Python.
- Contributed to testing, code review, data reliability, and application usability across business-critical systems.

Freelance Frontend Developer | Self-employed

AUG 2021 - JUN 2024

Remote

- Designed and delivered custom React applications and landing pages for independent clients.

02 / CORE TOOLKIT
